The gold is of 24 KT 999 purity.

The Directorate of Revenue Intelligence (DRI) has seized 19 kg gold from Nhava Sheva port in Uran in Raigad district and arrested a Vashi-based importer.

As many as 163 gold bars worth ₹5.5 crore were seized from five containers on Wednesday and Thursday. The gold biscuits were being carried under the cover of heavy melting scrap, kept inside heavy iron pipes screwed shut on both ends. Some biscuits were wrapped in black insulation tape, while some were unwrapped.

The DRI had received information about the gold being smuggled from Dubai to M/s Hind Terminal CFS, Nhava Sheva, on Wednesday. It seized one container with 7 kg gold the same day, and four more with the remaining 12 kg gold on Thursday.

The DRI has arrested Ghatkopar resident Rajesh Bhanushali, who had imported the consignment in the name of M/s Shourya Exim in Vashi by declaring it to be heavy melting scrap. According to DRI officers, a few more people involved in the racket are yet to be apprehended.

Mr. Bhanushali is suspected to have been running the racket for the last two years. The gold bars were all of 24 KT 999 purity, each weighing 10 *tolas*.

This is the second such seizure by the DRI in a week. On March 29, it had seized 110 kg gold from Dongri.

The Directorate of Revenue Intelligence (DRI) busted a gold smuggling racket on Thursday and seized 163 gold bars, weighing 19-kg, worth Rs 5.54 crore at the Jawaharlal Nehru Port Trust (JNPT) in Navi Mumbai.

The gold was smuggled to India from the United Arab Emirates (UAE) in three scrap metal pipes. On Friday, DRI officers arrested the proprietor of an import company for allegedly smuggling the yellow metal into the country.

Senior DRI officers said that they had received specific information on the five suspected containers, based on which they seized the smuggled gold at JNPT. On searching the metal pipes, the officers found gold bars concealed in black tapes.

“It was quite challenging for the DRI to seize the smuggled gold bars, as they were concealed inside the pipes. But we succeeded in finding the bars,” said a DRI Mumbai unit officer.
